Subject: RE: ACTION: Transmittal notification: 19-A-OPAR-000074 - FY 2021 ORD Lab Costs - Due COB May 22, 2019

Good morning Luanne,

We are in the process of conducting Environmental Due Diligence and Decommissioning efforts here in Las Vegas. No laboratory repair or improvement funding is required.

Hi Robert,

Do you anticipate any lab fixed cost estimates for the Las Vegas facility for 2021?

Thanks.

Hello All,

We have received the annual request from HQ for FY21 Fixed Cost Estimates for O&M, Utilities and Security costs, and I need your assistance to compile NERL's costs for our multiple locations. A template has been provided for you to

populate with each location's fixed costs estimates: Athens (Rick), Cincinnati (Chris) and Las Vegas (Robert). This template also includes an additional breakdown itemizing the fixed costs into "sub-areas" that may assist you with capturing your total cost estimates.

Please complete the template on the **first tab** (highlighted in green) of the attached file, with your location's total FY21 fixed costs estimates in the yellow column. Please be sure to include comments to explain any significant changes to your estimates from previous years. For reference purposes, I have included the FY20 estimates provided for last year's data call on the second tab.

For the Cincinnati location, please include the SHEM-related fixed costs under the O&M costs for Cincinnati, as provided last year.

Please provide the completed template for your location to me **by COB Wednesday, May 22, 2019**.

Feel free to call me with any questions or concerns.

Thanks.

ORD ACTION TRANSMITTAL

Transmittal Subject:	FY 2021 ORD Lab Costs
Response Due Date:	05/29/2019
Contact Organization:	OPARM

Background Information

In preparation for the FY2021 OMB Budget Submission, the OCFO/Office of Budget issued the annual data call asking for estimates of HQ program office Lab Costs in FY2021, including for Operations and Maintenance (O&M), Utilities and Security. These are reflected in IRMS in the RC/Congressional add on codes (53, 54 and 55) for ORD. This is our opportunity to address any new costs and account for other changes. The guidance for this exercise is the same as in previous years and can be found in each template.

Analysis

Templates for reporting FY2021 OMB budget estimates for operations and maintenance (O&M), utilities and security by appropriation are provided for each lab, the National Homeland Security Center, and the National Center for Computational Toxicology. *Other ORD organizations do not have a role in the data call.* The spreadsheet includes definitions and all costs are non-payroll.

The information requested in the template for each organization includes FY2021 OMB Budget estimates, corrections (if any) to the FY2018 actuals, and an explanation of any changes.

Action/Instruction for Response

Please submit your completed templates to OPARM's Stacy Rabkin (rabkin.stacy@epa.gov) and Jamie Bagheri(lang.jamie@epa.gov) by COB, Wednesday, May 29, 2019. Contact Stacy at 202-564-6519 or Jamie at 303-462-9063 if you have any questions.
